PASTRY CABINETS

KUCHENVITRINEN

Our Pastry cabinets have the same design like Gelato Cabinets, that we can assemble them together with Gelato Cabinets without sideglass and -panels. Pastry Cabinets have also strong insulation with a thickness of 80 mm, all front- and sideglasses are double and airchambered. Slow ventilation through a big evaporator enables high level of moisture inside of the cabinet.

Unsere Kuchenvitrinen haben die selbe Design wie die Eisvitrinen und sind mit den Eisvitrinen ohne Seitenglas und -paneel kombinierbar. (Kanalierbar) Kuchenvitrinen haben auch starke Isolierung von 80 mm, alle Front- und Seitengläser sind doppelt und isoliert. Langsame Umluftkühlung durch einen großen Verdampfer ermöglicht eine relativ hohe Luftfeuchtigkeit im Inneren der Vitrine.
